**SPACE PLANNING AND DESIGN**

**B.I. express** works with your company or design firm to create an attractive and efficient space plan that complements your corporate image and enhances your company's productivity.

- **Furniture Inventory Analysis:** A process that verifies your existing inventory, compares it with your objectives, and specifies what can continue to be utilized and what needs to be replaced.
- **Computer-Aided Drafting:** Utilizing AutoCAD / CAP software, we produce floor plans, isometrics, elevations and installation drawings to help you visualize your new work environment.
- **Interior Finish and Color Coordination:** We coordinate paint, fabrics, wall coverings and finishes to support your image.
- **Corporate Standards Program:** Standards are established so that your image is maintained from colors, signage, to fabrics—styles remain consistent throughout your company.
